## Profile

Ambitious computer science student with 2 years of experience in various roles involving other companies such as Pertemps. An expertise which spans a wide spectrum, encompassing proficiency in numerous programming languages, frameworks, databases, and applications. Thriving in environments that demand continuous learning and skill adaptation which would make me a strong asset for a business within the growing world of technology.

## Education

### GCSE's and A Level's, Barr Beacon Sixth Form / Language College, Great Barr, Birmingham

SEPTEMBER 2017 – PRESENT

GCSE grades:

- Maths - 7
- English Language - 6
- Computer Science - 8
- History - 7
- English Literature - 5
- Science - 65
- Information Technology - Merit

Duke of Edinburgh Bronze Award

A Level predicted grades:

- Computer Science - B
- Information Technology - Distinction\*
- Business - Distinction\*

## History within work

### Window Cleaning , Wayne Windows Pure Fed Pole Systems, Birmingham

SEPTEMBER 2021 – MARCH 2023

- Dealt with paperwork and invoices for the business, monitoring costs from over 10 housing businesses/associations. This was completed over multiple years.
- Developed an efficient cleaning schedule that allowed for thorough cleaning of all areas of the building in less time. This role made me relish quality within my work

### NCS Challenge (Volunteering), National Citizenship Service, Walsall

JULY 2022 – AUGUST 2022

I worked with the Midland Langar Seva society and volunteered throughout an entire week by feeding and supporting close to 100 homeless people throughout Walsall. I believe this experience developed my skills to work as a team.

### Bar Staff, Mitchells & Butlers (The Old Horns)

APRIL 2023 – PRESENT

- Managed inventory and restocking of bar supplies.
- By maintaining a safe and secure work environment, this role allowed me to be comfortable in fast paced, time sensitive workspaces.

### WEX, Pertemps Recruitment Agency, Birmingham

2023

- I gained critical experience and learned about their IT systems and databases containing 1000s of user profiles.

- Developed my knowledge about RM and job finding management systems by exploring the multitude of sectors within Pertemps.

## **Projects**

- One of the projects that I am currently developing is a website in order to track finances, inflows/outflows, day-to-day costs, and a food macro-nutrients tracker
- In the past I have also developed an Unreal Engine collaborative project using GitHub to work with each other
- I have also developed my own portfolio website in order to show my skills, projects, and bio
